Program Overview and Benefits

A solution for every space type, DMF has been designing products to fulfill the needs of our developer partners for over 35 years

Your trusted partner in Lighting

- Enhance your assets with innovative architectural lighting solutions
- Our developer program features customization, pricing transparency, and dedicated support
- Reliable and innovative products deliver a beautiful lighting experience with minimal maintenance

Future-Proof your Assets

- Our plug-and-play solutions result in ease of use, ease of installation, and ease of maintenance.
- Product solutions for every space type ensure continuity across your brands and properties
- As the needs of your space evolve, our future-proof solutions allow for easy upgrades

Maintain with Ease

- Embedded driver technology delivers an LED experience with the serviceability of a lightbulb
- Standard modules can be stored for in-house maintenance eliminating the need for multiple trades
- Engineered in California, warehoused on both coasts ensure product is delivered in days

Additional Program Benefits Include:

- Single Point of Contact
- Pricing Transparency*
- Supply Chain Planning
- Samples & Mockups included
- Layout Support
- Customized Product Solutions
- Language for Documentation
- Dedicated support for your design consultants, contractor partners, and facilities teams
